Where the pension record sits in Romania

The route from abroad

The free routes both stop at a Romanian identity. CNPP's new Virtual Private Space at my.cnpp.ro, live since 1 September 2026, holds the contribution record, pension decisions, the e-Talon and a rights simulator, and authentication runs through ROeID, the national electronic identification system. ASF's fund finder, the only free way to see which Pillar II fund holds an account, asks for surname, first name and CNP before it answers. The e-Talon reaches a person only through that portal account or by email after consent is given inside it. Nothing in the public system arrives by itself: pension rights are awarded only on application. Source: cnpp.ro, asfromania.ro, read 4 October 2026.

A deadline we hold for Romania

A Romanian pension beneficiary settled abroad must return a certificat de viata twice a year, by 31 March and by 30 September.

No. We identify where a pension is likely held and the official route to it, and we name each source with the date we read it. We do not give financial, tax or legal advice.
